Belarus

In Switzerland since 04/2022

24 Jul 1984 / 41 years

® Married / 1 child (2014)

- Driving licence: Cat. B; own car

ত্তি SUMMARY

Junior Data Analyst | SQL, Python (Pandas), Tableau, Power BI, BigQuery. 10+ years' business & security management experience (KPI design, process optimization, ERP: SAP MM/CO). Converts business questions into clean datasets and actionable dashboards with clear stakeholder communication and a focus on data quality and speed to value. Project impact: +25% faster funnel conversion.

HARD SKILLS

- Data analysis (SQL, Python)
- Process optimization & KPI definition
- Data preparation and cleaning
- ERP analysis (SAP MM, CO)

- Visualization and dashboard creation
- Security and risk management
- Statistical methods and A/B testing

🥮 tools

- Tableau
- Power BI / Looker Studio
- PostgreSQL / BigQuery / DBeaver
- Excel / Power Query
- Google Analytics 4 / Amplitude
- Python (Pandas, NumPy, Matplotlib)

LANGUAGES

- German Advanced (C1 in progress)
- English Basic
- Ukrainian Fluent
- Belarusian Native

PROJECTS

Funnel Conversion Time Analysis

Tools: SQL, Tableau, Excel

Description: Built an interactive dashboard in Tableau to analyze funnel conversion times across user segments. Explored where users drop off and how long each stage of the funnel takes.

My tasks:

- Data preparation in SQL and Excel
- Funnel performance analysis
- Dashboard development with filtering and segmentation

Result:

- Identified key bottlenecks in the conversion process
- Provided recommendations that improved conversion speed by 25%
- Delivered a clear visualization for management decision-making

E-commerce Data Analysis with BigQuery

Tools: Google BigQuery, SQL, Google Cloud Console, Looker Studio

Description: Performed large-scale data analysis of e-commerce transactions stored in BigQuery. Explored customer purchase behavior, revenue trends, and cohort-based retention metrics.

My tasks:

- SQL queries for extracting and aggregating large datasets
- Cohort analysis and revenue segmentation
- KPI calculation (ARPU, LTV, retention)
- Data visualization in Looker Studio

Result:

- Discovered hidden revenue patterns across cohorts
- Provided insights for better customer retention strategies
- Supported data-driven decision-making for marketing optimization

WORK EXPERIENCE

Since 01/2025	Actively seeking employment
Since 02/2024	Intensive improvement of German language skills
03/2023 – 02/2024 12 months 06/2022 – 03/2023	 Solar Technology Installer Schmocker Gebäudemanufaktur AG Oberrohrdorf, Switzerland Manufacturing and installation of building components and solar systems (3 employees). Completed an approx. 40 kWp project (apartment building, 8 units) within 2 weeks on schedule; accepted at first inspection, no safety incidents. Precise installation of modules, inverters and DC cabling according to plans; minimised snag list items at project close. Operations Employee
11 months	 Obrist Transport + Recycling AG Neuenhof, Switzerland Transport and recycling services (over 70 employees). Quickly familiarised with routes across several municipalities (incl. Baden District, Affoltern am Albis); reliably met daily shift plans. Consistent sorting and loading quality under time and weather pressure.
04/2022 – 06/2022	Relocation from Ukraine to Switzerland due to the current situation.
11/2019 – 06/2022 2 years 10 months	Regional Security Manager DIYESA GmbH Kyiv, Ukraine Retail of household appliances and electronics (approx. 300 employees). Increased inventory accuracy by 25% through warehouse automation and ERP improvements (SAP MM/CO). Reduced delivery times by 15% through optimised route and deployment planning; modernised branch-wide security infrastructure. Defined a KPI set (stock variances, shrinkage) and established weekly reporting in Excel/Power BI.
11/2014 – 11/2019 5 years	 Security Employee / Deputy Manager PrivatBank Chernivtsi, Ukraine Financial services and banking (approx. 50 employees). Reduced operational risks by 20% via preventive measures based on internal incident analyses. Optimised cash-transport logistics; shortened lead times while increasing security.
11/2012 – 11/2014	Branch Manager and Security Manager
2 years	 Kalinovskiy Markt GmbH Chernivtsi, Ukraine Food and household goods retail (approx. 50 employees). Introduced new planning and accounting systems: −12% costs, +15% throughput speed. Reorganised branch structure: −15% costs, +20% productivity.
12/2006 – 11/2012 6 years	Regional Head (District Chief) Administration of Grodno Region Novogrudok, Belarus Public administration and regional management (approx. 150 employees). • Implemented electronic document workflow: reduced coordination time from 5 to 2 days across 10 departments. • Established digital fleet monitoring: lowered fuel costs by 15%.

Grodno State Agrarian University Grodno, Belarus		
Installation and maintenance of security systems. • Delivered complex museum security installation (CCTV, access control, fire alarm) on schedule. • Trained installers and established QA processes; increased reliability of commissioning.
